

FAU ASPRS • FSMS • FWEA STUDENT CHAPTERS

Sponsorship package

GIS MELA 2026 | A festival of **Data, Maps, Users & Tools**

WORLD GIS DAY • TUE, NOV 17, 2026 • 9AM-3PM • FAU STUDENT UNION

PRESENTED
BY

GIS Mela 2026 at Florida Atlantic University

On World GIS Day, three FAU student chapters open the Student Union to everyone curious about where things are, and why.

GIS Mela is a one-day festival of geospatial science. Students present their research and posters and enter the map showcase for cash prizes; companies and agencies demonstrate drones, LiDAR and GeoAI at hands-on tables; and FAU's Center for Water Resiliency & Risk Reduction demonstrates its CWR³Data platform (its platform guide is linked in the invitation email). Entry is free and open to every major — no GIS experience needed — with lunch for everyone who RSVPs.

DATA

CWR³Data demo — visualize your geospatial thoughts

MAPS

Student research presentations, posters & map showcase

USERS

Students, researchers and professionals from public and private sectors

TOOLS

Rainfall-runoff simulation, GeoAI, UAV—LiDAR fusion · drone & LiDAR tables

WHEN

Tue, Nov 17, 2026

9 AM – 3 PM · World GIS Day

WHERE

FAU Student Union

777 Glades Road, Boca Raton

WHO

Free · all majors

Students, researchers, professionals

Why sponsor

Meet the students who will be your next GIS analysts, surveyors and water engineers, in a room full of the tools they will use — and put your name in front of three professional societies' members at once.

Cash prizes · free lunch · swag, all day.

History of ASPRS

The American Society for Photogrammetry and Remote Sensing (ASPRS) Student Chapter at Florida Atlantic University was established to support students interested in geospatial science and technology.

The goal of the student chapter is to connect students with GIS, remote sensing, photogrammetry, surveying, drone/UAS mapping and related geospatial technologies through technical presentations, workshops, professional networking, conferences and industry interactions.

The chapter also collaborates with other student organizations, including the FSMS and FWEA Student Chapters, to organize activities such as GIS Day / GIS Mela — helping students learn about geospatial applications in engineering, environmental monitoring, transportation, water resources and other fields.

History of FSMS

The Florida Surveying and Mapping Society (FSMS) Student Chapter at Florida Atlantic University was created to support students interested in surveying, geomatics, mapping, GIS and other geospatial technologies. It gives students a way to become more involved in the profession while connecting with classmates, faculty and industry professionals.

FSMS focuses on professional development, networking, hands-on learning and exposure to real-world surveying and mapping. Members attend industry events, hear from guest speakers, take part in outreach and learn about careers in surveying and geomatics.

The chapter works with other FAU student organizations and industry professionals to create more opportunities for students to get involved, make connections and keep learning outside the classroom.

SAY HELLO AT GIS MELA

Tue, Nov 17 • 9 AM – 3 PM • FAU Student Union

History of FWEA

The Florida Water Environment Association (FWEA) Student Chapter at Florida Atlantic University was formed in 2004.

Its goal is to connect students to the water and wastewater sectors — through events where engineers discuss their professions, tours of treatment facilities, conferences, and professional chapter events such as lunch-and-learns and seminars.

GIS is an important tool in civil engineering, so the FWEA chapter has joined the ASPRS and FSMS chapters to introduce more students to it and related technologies through GIS Day.

SAY HELLO AT GIS MELA

Tue, Nov 17 • 9 AM – 3 PM • FAU Student Union

Choose how you take part

Three levels, each one a direct investment in the next generation of geospatial professionals.

GOLD \$400	SILVER \$250	BRONZE \$100
✓ Tabling at the GIS Day event ✓ Logo on the event T-shirt & banner ✓ Social media mention in event posts ✓ Demo / presentation at the event	✓ Tabling at the GIS Day event ✓ Logo on the event T-shirt & banner ✓ Social media mention in event posts	✓ Tabling at the GIS Day event ✓ Logo on the event T-shirt & banner
FOR YOUR COMPANY Your team at a table, your logo on every shirt and banner, a mention in our posts — and a slot to demo or present your technology to the room.	FOR YOUR COMPANY A table to meet students face to face, your logo on the shirt and banner, and a mention in our event posts.	FOR YOUR COMPANY A table at the event and your logo on the T-shirt and banner that everyone wears and sees.

FOR STUDENTS • EVERY TIER

Free for every major.

Sponsorship keeps GIS Mela open to all students at no cost.

Meet employers. Students talk to you face to face and learn where their skills lead.

Try real tools. Demos show how GIS, drones and LiDAR are used at work.

Sponsor in three steps

STEP 1 • FORM
